

OPI Manager – Update u013

For OPI Manager version 1.3 and 2.0 a new update u013 is available now.

Key-Features of OPI Manager Update u013:

- Support for JPEG2000 files
- No error messages anymore ("A suitable filter is missing.") during relinking of images
- Drop shadows with Offset = 0 are processed correctly

All registered users of OPI Manager will get update u013 for free. Please open URL:

<http://www.macademy.de/download/download2-e.html>

and use your OPI Manager serial number followed by "@macademy.de" as the user name (e.g. 12345@macademy.de).

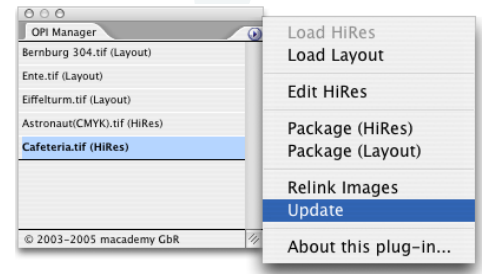

As password please use

- "u013M" for Macintosh platform or
- "u013W" for Windows platform.

If you use both platforms, you have to log in twice.

Then you will get OPI Manager for the selected platform both for InDesign CS (version 1.3.0u013) and InDesign CS2 (version 2.0.0u013). Please copy the new version to your Plug-in folder of Adobe InDesign and restart the application.
